

This project consists in a teacher exchange between the Conservatorio de Música de Murcia (Spain) and the Finnish Music Institute of Lappeenranta (Finland) during the whole school year 2016-2017. The general aim of this experience is the enrichment of both educational centres thanks to the internationalization and the searching of new resources which result in the improvement of teaching quality.

The activities planned focus on the development of didactic, social, linguistic and intercultural abilities, and there will be a program of courses, concerts, lectures and cultural visits in each of the participating countries. The Finnish teachers will visit Murcia from 17 to 21 October 2016 and the teachers from Murcia will be in Lappeenranta from 18 to 23 April 2017.
